

genus

write your name

make up a latin name for yourself

Turn this outline of a person into you. Draw your eyes, your hair, your favorite clothes.

Think about all the things your body can do...

What are your ears for?
Are you a good listener?
What do you like to
listen to?

... then tell us all the things about yourself that make you who you are.

What are your feet for?
Do your feet make you a fast
runner? A great dancer?
Or are they still and steady?

What are your hands for?
Do they like to draw or write
stories? Do they play guitar?
